Medi-Cal Dental

Coming Soon: New CDT-24 Codes D2989, D6089, and D9957

Effective February 1, 2024, the following Current Dental Terminology (CDT-24) codes will be added to the Manual of Criteria (MOC) as global procedures:

- D2989 (restorative service excavation of a tooth resulting in the determination of non-restorability),
- D6089 (implant service accessing and retorquing loose implant screw), and
- D9957 (sleep apnea service screening for sleep related breathing disorders)

The <u>Medi-Cal Dental Schedule of Maximum Allowances</u> and <u>Section 5 of the Provider Handbook</u> will be updated on February 1, 2024, when the codes become effective.

Please note, "global procedures" are those procedures that are performed in conjunction with, and as part of, another associated procedure. Global procedures are not separately payable from the associated procedure.
